

Slide on a Rosco Slidey to quickly turn unused flags and gel frames into other tools needed on set. This patent-pending system enables image capture professionals to repurpose virtually any 24"x36" or 48"x48" gel frame or flag – even torn or damaged flags – into a reflector, a bouncer, or a small blue or green screen. Each Rosco Slidey is dual-sided, which will turn single-use flags and gel frames into multipurpose tools for image capture.
